

## AMERCOAT 68 E CURE

MSDS EU 01 / EN Version 1

Print Date 6/2/2010 Revision date 02-04-09

IDENTIFICATION OF THE SUB	STAN	NCE/PREPARATION AND OF THE COMPANY/UNDERTAKING
Product information		
Trade name	:	AMERCOAT 68 E CURE
Recommended use	:	coating
Company	:	PPG Coatings SPRL/BVBA Noordersingel 23 B-2040 Borgerhout
Telephone	:	+32 3 3606470
Telefax	:	+32 3 3606435
Emergency telephone number	:	+31 20 4075210
E-mail address	:	PMC.Safety@PPG.com

### 2. HAZARDS IDENTIFICATION

Symbol(s) : Harmful

Hazardous components : xylene

**R-phrase(s) :** FLAMMABLE. HARMFUL BY INHALATION AND IN CONTACT WITH SKIN. IRRITATING TO RESPIRATORY SYSTEM AND SKIN. RISK OF SERIOUS DAMAGE TO EYES.

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

Components	EC No.	CAS-No.	DSD	Note	Classification	Concentration
isobutyl methyl ketone	203-550-1	108-10-1	25th		F; R11 Xn; R20 Xi; R36/37 R66	>=10.00 - <20.00%
xylene	215-535-7	1330-20-7	25th	Nota C	R10 Xn; R20/21 Xi; R38	>=25.00 - <50.00%
iso-butanol	201-148-0	78-83-1	25th		R67 R10 Xi; R37/38, R41	>=15.00 - <20.00%
ethylbenzene	202-849-4	100-41-4	19th		F; R11 Xn; R20	>=2.50 - <10.00%

ANDLING AND STORAGE	
Handling	
Safe handling advice	: Avoid exceeding of the given occupational exposure limits (see section 8). Use only in area provided with appropriate exhaust ventilation. Avoid contact with skin, eyes and clothing. Smoking, eating and drinking should be prohibited in the application area. Avoid inhalation of vapour or mist. For personal protection see section 8.
Advice on protection against fire and explosion	: Prevent the creation of flammable or explosive concentrations of vapour in air and avoid vapour concentration higher than the occupational exposure limits. When transferring from one container to another apply earthing measures and use conductive hose material. No sparking tools should be used. Operators should wear anti-static footwear and clothing and floors should be of the conducting type. Isolate from sources of heat, sparks and open flame. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapours). The product should only be used in areas from which all naked lights and other sources of ignition have been excluded. No smoking. The accumulation of contaminated rags and dry overspray, particularly in spray booth filters, may result in spontaneous combustion. Good housekeeping standards, regular safe removal of waste materials and regular maintenance of spray booth filters will minimise the risks of spontaneous combustion and other fire hazards.
Storage	
Requirements for storage areas and containers	: Observe label precautions. Prevent unauthorized access. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Store between 5 and 30°C (41 - 86 F) in a dry, well ventilated place away from sources of heat, ignition and direct sunlight. Solvent vapours are heavier than air and may spread along floors. Vapours may form explosive mixtures with air. Electrical installations / working materials must comply with the technological safety standards. Keep away from sources of ignition - No smoking. Store in accordance with the particular national regulations (see
Advice on common storage	section 15). : Keep away from oxidising agents and strongly acid or alkaline materials.

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

## Components on the national list and/or the European TLV list (98/24/EC):

Components	CAS-No.	Value [mg/m <sup>3</sup> ]	Value [ppm]	Basis
isobutyl methyl ketone	108-10-1	83 208	20 50	EU ELV TWA EU ELV STEL
xylene	1330-20-7	221	50	EU ELV TWA
can be absorbed through skin		442	100	EU ELV STEL
ethylbenzene	100-41-4	442	100	EU ELV TWA
can be absorbed through skin		884	200	EU ELV STEL

## Personal protective equipment

### General advice

## AMERCOAT 68 E CURE

MSDS EU 01 / EN Version 1

PPG Protective & Marine Coatings

Print Date 6/2/2010 Revision date 02-04-09

Respiratory protection	: When operators, whether spraying or not, have to work inside the spray booth, ventilation is unlikly to be sufficient to control particulates and solver vapour in all cases. In such circumstances they should wear a compressed air fed respirator during the spraying process and until such time as the particulates and solvent vapour concentration has fallen below the exposure limits.
Hand protection	<ul> <li>For prolonged or repeated contact use protective gloves.</li> <li>Barrier creams may help to protect the exposed areas of skin, they should however not be applied once exposure has occurred.</li> <li>Skin should be washed after contact.</li> <li>Use chemical resistant gloves classified under Standard EN 374: Protective gloves against chemicals and micro-organisms.</li> </ul>
	Recommended gloves: Viton Minimum breakthrough time: 480 min
	The recommended gloves are based on most common solvent in this produc
	When prolonged or frequently repeated contact may occur, a glove with a protection class of 6 (breakthrough time greater than 480 minutes according to EN 374) is recommended. When only brief contact is expected, a glove with a protection class of 2 or higher (breakthrough time greater than 30 minutes according to EN 374) is recommended. NOTICE: The selection of a specific glove for a particular application and duration of use in a workplace should also take into account all relevant workplace factors such as, but not limited to: Other chemicals which may be handled, physical requirements (cut/puncture protection, dexterity, thermal protection), potential body reactions to glove supplier.
Eye protection Skin and body protection Additional advice	<ul> <li>Chemical resistant goggles must be worn.</li> <li>Personnel should wear protective clothing. Skin should be washed after contact. Working clothes must not consist of textiles, which show a dangerous melting behaviour in case of fire. Workers should wear antistatic footwear.</li> </ul>
Environmental protection	: Refer to national regulations in chapter 15 for regulations on environmental protection.
Personal protection Protective equipment	: Enclosing glasses, safety gloves and P2A2 half-face combi mask
Please contact your personal pr	otection equipment supplier for further advice

SAFETY DATA SHEET рРG This Safety Data Sheet is prepared in accordance with Annex II to Regulation (EC) No. 1907/2006. PPG Protective & Marine Coatings AMERCOAT 68 E CURE MSDS EU 01 / EN Version 1 Print Date 6/2/2010 Revision date 02-04-09 **12. ECOLOGICAL INFORMATION Further information** : The preparation has been assessed following the conventional method of the Dangerous Preparations Directive 1999/45/EC and is not classified as dangerous for the environment. See section 3 for details on components. **13. DISPOSAL CONSIDERATIONS** The product should not be allowed to enter drains, water courses or the soil. Product

Trouter		Disposal together with normal waste is not allowed. Special disposal required according to local regulations.
Waste key for the unused product	:	The European Waste Catalogue classification of this product, when disposed of as waste is:
		08 01 12 Waste paint and varnish other than those mentioned in 08 01 11.
		If this product is fully cured or mixed with other wastes, this code may no longer apply. If mixed with other wastes, the appropriate code should be assigned. For further information contact your local waste authority

### **14. TRANSPORT INFORMATION**

Transport within user's premises: always transport in closed containers that are upright, labelled and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport to be in accordance with ADR for road, IMDG for sea and IATA for air transport:

UN-Number	:	1263
Proper shipping name	:	PAINT RELATED MATERIAL
Class	:	3
Packing group	:	III
Label	:	3
Proper shipping name (ADR)	:	PAINT RELATED MATERIAL
Marine Pollutant (IMDG)		: -
EmS (IMDG)		: F-E, S-E
Limited quantity (ADR)		: Max. per inner pack. : 5.00 L
		Max. per outer pack. : 30.00 KG
Limited quantity (IMDG)		: Max. per inner pack. : 5.00 L
		Max. per outer pack. : 30.00 KG

Note

IMDG/IATA: If package size is more than 30 l, packaging group II.

## **15. REGULATORY INFORMATION**

The product is classified and labelled in accordance with Directive 1999/45/EC.

6/8

S-phrase(s)	: S23 S26	Do not breathe spray. In case of contact with eyes, rinse immediately with
	320	plenty of water and seek medical advice.
	S36/37/39	Wear suitable protective clothing, gloves and eye/face protection.
	<b>S</b> 38	In case of insufficient ventilation, wear suitable respiratory equipment.

The information contained in this safety data sheet does not constitute the user's own assessment of workplace risks, as required by other health and safety legislation. The provisions of the national health and safety at work regulations apply to the use of this product at work.

### National legislation

#### **16. OTHER INFORMATION**

isobutyl methyl ketone	R11	Highly flammable.
	R20	Harmful by inhalation.
	R36/37	Irritating to eyes and respiratory system.
	R66	Repeated exposure may cause skin dryness or cracking
xylene	R10	Flammable.
	R20/21	Harmful by inhalation and in contact with skin.
	R38	Irritating to skin.
iso-butanol	R10	Flammable.
	R37/38	Irritating to respiratory system and skin.
	R41	Risk of serious damage to eyes.
	R67	Vapours may cause drowsiness and dizziness.
ethylbenzene	R11	Highly flammable.
-	R20	Harmful by inhalation.

## AMERCOAT 68 E CURE

MSDS EU 01 / EN Version 1

Print Date 6/2/2010 Revision date 02-04-09

2,4,6-tris-(dimethylaminomethyl)-phenol	R22 R36/38	Harmful if swallowed. Irritating to eyes and skin.
polyaminoamide	R41	Risk of serious damage to eyes.

This Safety Data Sheet is based on the Safety Data Sheets obtained from the producer/manufacturer or/and internet databases and valid regulations considering hazardous substances/preparations.

Training advice:

Persons taking part in a turnover of hazardous products ought to be trained in product handling, safety and hygiene.

Drivers ought to be trained and obtain a certificate in accordance with the requirements of transport regulations (ADR).

Version: 1

#### Revision date 02.04.2009

The information contained in this safety data sheet is based on the present state of knowledge and current European and National legislation at the date of issue. The supplier reserves the right to modify data on the safety data sheet without further notice. Any change in data will normally be followed by the issue of a new safety data sheet. The user should check the date of issue and if more than 12 months have elapsed, then the data should only be used after checking with the nearest sales office of the supplier to establish that the data is still valid. As the specific conditions of use of the product are outside the suppliers control, the supplier is not reponsible for the (negative) consequences of these specific conditions of use, which are outside of the suppliers control and which are not compliant with the handling, storage and other instructions in this safety data sheet.

After all component(s) stated on the relevant Technical Data Sheet have been mixed the safety precautions mentioned on each of the component(s) safety data sheets and labels should be used in assessing the safety precautions of the mixed product.
